BioScience Essentials 2BRN*: a web-based resource for Enrolled Nurses transitioning in Bachelor of Nursing registration program

David van Reyk1, Jennifer L. Cox2, Patricia A. Logan2, Judith Salvage-Jones2, Judith Anderson2, Elspeth Hillman3, Amy N.B. Johnston4
1University of Technology Sydney, 2Charles Sturt University, 3James Cook University, 4University of Queensland and Princess Alexandra Dept. of Emergency Medicine.

http://www.bioscienceessentials2brn.com/
The website has two components

One for the students

For enrolled nursing students, this site will help you...

- Prepare for direct entry to Year 2 pathobiology and immunology by building your human bioscience knowledge before you start university.
- Know what it's like as a university student.
- Get a head start on terminology and writing in science.

One for their teachers

For nursing educators, this site will help you...

- Connect your students with revision material to help them get ready to study bioscience.
- Assist students transitioning from the VET sector to university by providing them with knowledge tools.
- Access practical resources to help your students prepare for life at university.

Here's what's available for students

You want to be a registered nurse. We want to help you get there.

- Assess your confidence
- Take a warm up quiz
- Learn more

Help with the course

Your bioscience learning modules

- Lymphatic system & immunity
- Gastrointestinal system
- Microbiology

Help with the content

Explore these modules to extend your knowledge.

Assess your confidence

Gastrointestinal system

Warm Up Quiz

It's all about the group of organs which work together to convert food into energy and basic nutrients to feed the entire body.

Take a warm up quiz

Gastrointestinal system

Check What You Have Learned Quiz

It's all about the group of organs which work together to convert food into energy and basic nutrients to feed the entire body.

Check what you have learned
